April 7th, 2025

Letter of Recommendation for:

Heath Engineering Limited
Suite 300, 160 Quarry Park Blvd SE
Calgary, AB T2C 3G3

To Whom it May Concern:

Archiasmo Architectural Works Limited has worked with Dan Heath and Heath Engineering for many years on numerous projects. Our work together has included commercial, industrial and residential developments, along with many First Nation buildings.

We have always found Dan to be an extremely competent structural engineer. Dan has proven that he works collaboratively with our team, actively engaging in creative problem solving and value engineering when needed. He has been a valuable member of our team on every project.

Dan has been proactive and responsive, meeting deadlines and project goals with cost effective solutions. He has always been available to review construction progress, with a quick turn around on site reports, requests for information and shop drawings.

I would not hesitate to recommend Dan and Heath Engineering, and I look forward to our continuing relationship.

Respectfully,

A handwritten signature in blue ink, appearing to read "Joanne Wright", is written over a faint, light blue circular stamp or watermark.

Joanne Wright, M.Arch., M.R.A.I.C.
