To Whom It May Concern,

It is with great confidence that we recommend **Heath Engineering** as a trusted structural engineering partner. At **Azimuth Builders Ltd.**, we've had the opportunity to collaborate with Daniel Heath and his team on numerous commercial and industrial construction projects, and their professionalism, technical expertise, and responsiveness continue to exceed expectations.

Heath Engineering consistently brings a proactive, solutions-focused mindset to the table. Their designs are not only structurally sound and code-compliant, but also demonstrate a strong understanding of construction sequencing, cost-efficiency, and long-term performance—qualities we value deeply as builders committed to delivering excellence.

Whether navigating complex structural requirements or supporting quick-turnaround design revisions, Daniel and his team communicate clearly and collaborate seamlessly with our project coordinators, architects, and field staff. Their contributions have been instrumental in driving project momentum and avoiding costly delays.

We consider Heath Engineering a reliable extension of our team and a key part of our project delivery success. We would not hesitate to recommend them to anyone seeking a highly capable, professional, and personable structural engineering partner.

Sincerely,

Gary Bizek
