TO WHOM IT MAY CONCERN:

Re: Heath Engineering Limited

Our office has worked with Heath Engineering Limited on a number of projects over the past few years. We have found the firm to be proactive and competent in handling various types of construction, always working well with the various consultants involved for each project. The work shows great attention to detail, with a willingness to discuss alternate solutions when required. The response time to produce drawings or review shop drawings is consistently on schedule, which is greatly appreciated for project timing.

We will continue to work with Heath Engineering in the future and recommend their services to our clients.

Yours truly,

Rick Balbi, Architect, AAA, M.R.A.I.C., B.Arch.
